Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Specification

1. A substitute dependent claims (claims 2-16) in compliance with 37 CFR 1.52(a) and (b) is required. The substitute claims filed must be accompanied by a statement that it contains no new matter. The dependent claims should follow the US practice described in MPEP 608.01(n). It is not clear claims 3 and 4 are dependent or independent claims since the dependence presented at end of the claims. It is not clear "a controller" in claim 3 is the same controller in claim 1 if claim 3 includes all the limitations in claim 1.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 3-6,8,11 and 14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

4. Claims 3 and 4 recites the limitation "means" and "controller". Since claims 3 and 4 depend on claim 1, it is not clear whether they are the same "means" and "controller" in claim 1.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 3744

6. Claims 1 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Fujiwara (JP 2000121192).

Fujiwara discloses a cryogenic refrigeration system. In regard to claims 1 and 2, referring to Fig.2, the system comprises controller 7 to control an inverter 14, refrigerator unit 8, power source 8 and temperature sensor to measure the load in the container 20.

In regard to claims 7 and 9, Fujiwara discloses the cryogenic refrigeration comprises a superconductive magnet and the controller control the inverter according to the superconductive magnet as shown in Fig.1.

In regard to claims 10 and 12, the using of cryogenic refrigerator to measuring apparatus is an intended use and has no weight in the claims. Fujiwara discloses the cryogenic refrigeration system can be used on MRI.

In regard to claims 13,15 and 16, Fujiwara discloses the cryogenic refrigeration system comprises liquefaction system (Fig.5), liquid level sensors 42,43 and controller control the inverter based on the sensor input. Fig.4 shows the controller control the inverter based on the temperature sensor 6.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Chen-Wen Jiang whose telephone number is (571) 272-4809.
